

Readme Progress Tracker

Important: README Contribution Guidelines

If you need to make any changes or updates to the README.md file, please follow these rules:

- Branching: Use the dedicated branch "docs/finish-readme" for all edits.
-  [GitHub - kingak4/ft_transcendence at docs/finish-readme](#)
- Pull Requests: Do NOT open a Pull Request early. Please submit a Pull Request ONLY after the entire README is 100% complete and finalized.

The README.md must include at least:

- ☒ • The very first line must be italicized and read: This project has been created as part of the 42 curriculum by [, [, [...]]].

To-Do

- ☒ Kinga
- ☒ A "Description" section that clearly presents the project, including its goal and a brief overview.

To-Do

- ☒ Kinga
- ☐ Zyta
- ☐ Alina
- ☐ Szymon

- ☒ An "Instructions" section containing any relevant information about compilation, installation, and/or execution.
- ☐ A "Resources" section listing classic references related to the topic (documentation, articles, tutorials, etc.), as well as a description of how AI was used — specifying for which tasks and which parts of the project.

➡ Additional sections may be required depending on the project (e.g., usage examples, feature list, technical choices, etc.)

To-Do

- ☒ The "Description" section should also contain a clear name for the project and its key features.
- ☒ The "Instructions" section should mention all the needed prerequisites (software, tools, versions, configuration like .env setup, etc.), and step-by-step instructions to run the project.

To-Do

- ☐ Zyta
- ☐ Alina
- ☐ Szymon
- ☐ Kacper

Additional sections required for this activity:

☐ Team Information:

- ☒ Assigned role(s): PO, PM, Tech Lead, Developers, etc.
- ☐ Brief description of their responsibilities.

To-Do

- ☒ Kinga
- ☐ Zyta
- ☐ Alina
- ☐ Szymon
- ☐ Kacper

☒ Project Management:.

- ☒ How the team organized the work (task distribution, meetings, etc.).
- ☒ Tools used for project management (GitHub Issues, Trello, etc.). °
- ☒ Communication channels used (Discord, Slack, etc.).

To-Do

- ☒ Kinga

☐ Technical Stack:

- ☐ Frontend technologies and frameworks used.
- ☐ Backend technologies and frameworks used.
- ☐ Database system and why it was chosen. °
- ☐ Any other significant technologies or libraries. °
- ☐ Justification for major technical choices

To-Do

- ☐ Szymon

☐ Database Schema:

- ☐ Visual representation or description of the database structure.
- ☐ Tables/collections and their relationships. °
- ☐ Key fields and data types

To-Do

- ☐ Alina

☐ Features List:

- ☐ Complete list of implemented features.
- ☐ Which team member(s) worked on each feature.

- ☐ Brief description of each feature's functionality.

To-Do

- ☐ Szymon
- ☐ Kacper

☐ **Modules:**

- ☒ List of all chosen modules (Major and Minor).
- ☒ Point calculation (Major = 2pts, Minor = 1pt).
- ☒ Justification for each module choice, especially for custom "Modules of choice".
- ☒ How each module was implemented.
- ☒ Which team member(s) worked on each module.

To-Do

- ☒ Kinga
- ☐ Szymon

The README.md is a critical part of your project evaluation.

It should be:

- **Clear and well-organized.**

- **Complete with all required sections.**

- **Professional and easy to read.**

- **Honest about contributions and challenges. A poor or incomplete README can negatively impact your evaluation**
